

Dedicated Host

Dedicated Instance

Bizim Instance

www.e-commerce...

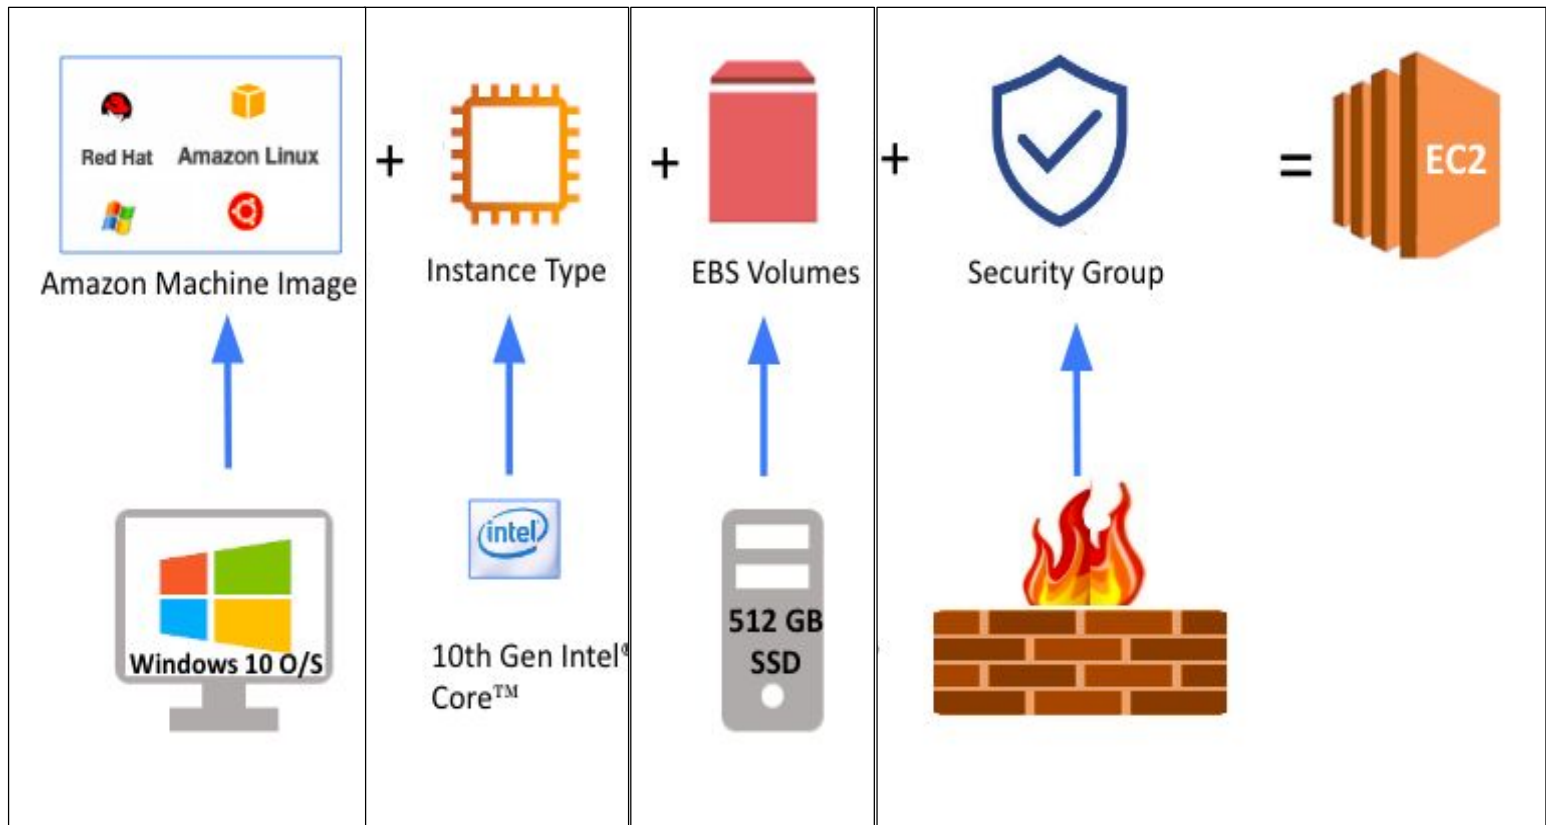

Publishing the website

aws

The **KEY** of the instance is **VALUE**

Key (128 characters maximum)	Value (256 characters maximum)
Name	First EC2
Department	Supply
Type	Web

The **NAME** of the instance is **FIRST EC2**

The **DEPARTMENT** of the instance is **SUPPLY**

The **TYPE** of the instance is **WEB**

SECURITY
GROUP

Stateful

Inbound Rule

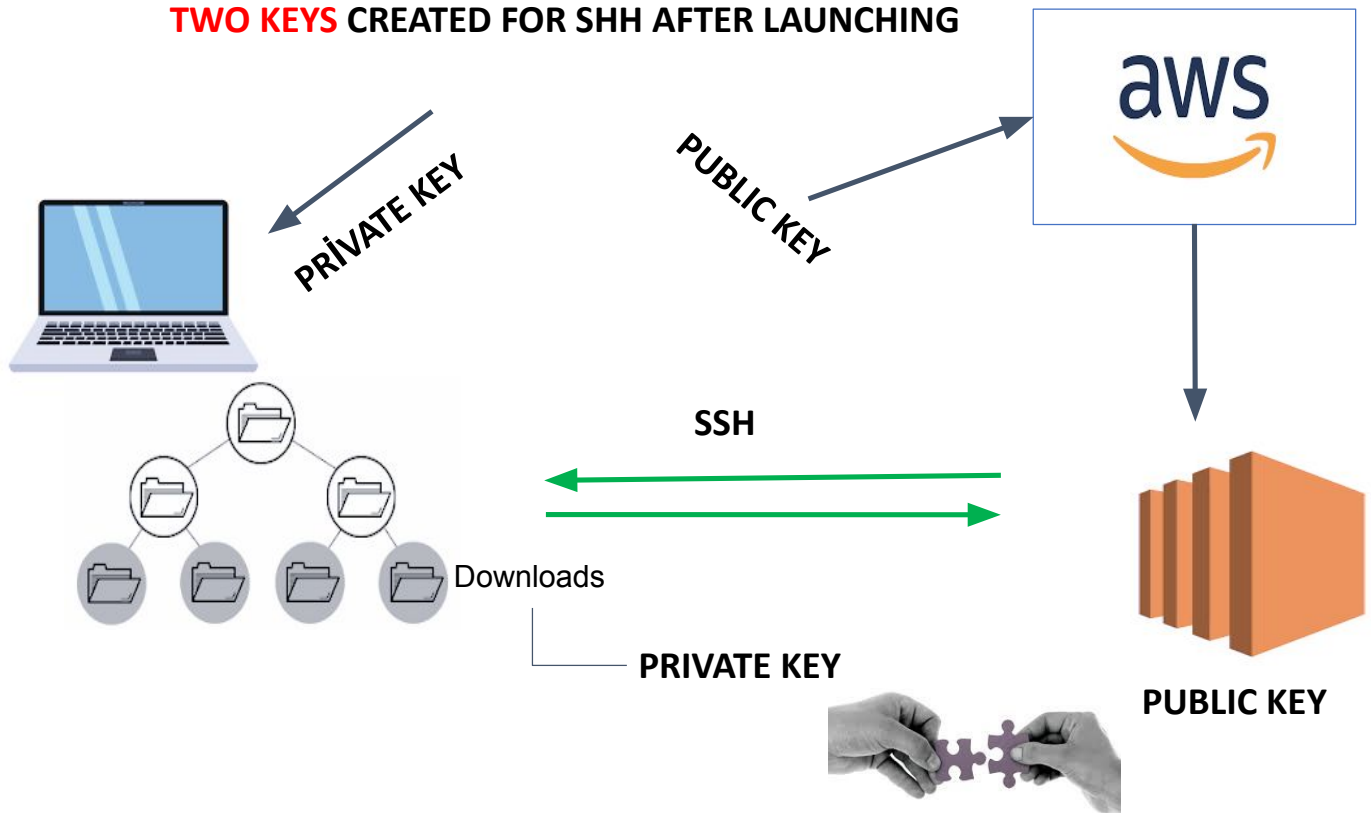

defines who can **join** the party

Outbound Rule

defines who can **leave** the party

TWO KEYS CREATED FOR SSH AFTER LAUNCHING

Go the directory of folder where your key.pem is located

Connect

Linux/Mac

Git Bash
Windows 10 Powershell

WSL

```
cd Downloads
ls
firstkey.pem
```

```
cd \Downloads\
ls
firstkey.pem
```

```
cd /mnt/c/Users/Osvaldo/Downloads
ls
firstkey.pem
cp firstkey.pem ~
cd (go to home directory)
ls
firstkey.pem
```

```
chmod 400 firstkey.pem
```

---No chmod 400---

```
chmod 400 firstkey.pem
```

```
ssh -i firstkey.pem ec2-user@publicIP of Instance
```

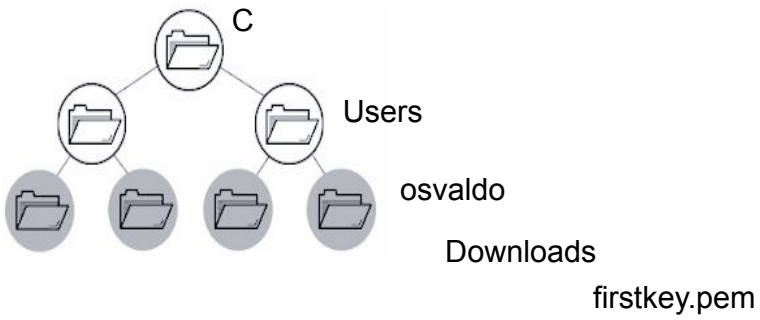

`cp firstkey.pem ~`
